Assignment For Applicants

Scenario

- Consider that you are working as a Product Owner at Daftra, and you are responsible for writing the requirements for the Invoice module. You are asked to define the requirements for the Invoice module, including selecting products, selecting a client, applying discounts, applying taxes, and any additional enhancements.

Deliverables

- User stories for the Invoice module
- Wireframe for the Invoice module

Note: Feel free to use some information from www.daftra.com.
